

# Gwinganna House

Uniquely Australian, Gwinganna House has been developed into a spacious Queensland style timber lodge overlooking the valleys, lush hinterland and ocean. Complete with historical artefacts, a traditional wood oven and original brick flooring, the 100 year old house has been lovingly restored. Boasting wrap around verandahs with gardens, Gwinganna House is surrounded by natural beauty with distant ocean views and is ideal for single use or couples that are looking for more unique accommodation. The house has a spacious lounge, separate country style bedroom and a bathroom complete with an antique footed bath. Rates are as per Deluxe Orchard Suite.

*"I have always loved the original Gwinganna House, also affectionately known as Johnny's House. Staying in the house as a guest was a truly wonderful experience. This is a very special house, especially when you are looking for something a little more rustic, quaint and warm. The moment you step through the door you know that this is going to be a unique experience. Enjoy this latest addition to the accommodation options at Gwinganna Lifestyle Retreat".*
