Deep Tissue Remedial

50min \$165 80min \$225

A deeper therapeutic massage designed to alleviate muscle tightness and work at releasing the tension that may be causing pain or restriction in movement. Your therapist will discuss with you your specific areas of concern and focus on those areas. Choose the 80 minute option if you have more than two areas of the body that are creating discomfort.

Hot Stones

50min \$165 80min \$225

Smooth, hot stones are held in the therapist's hand and directed over your body whilst others are placed along your spine creating a deeply relaxing and nurturing experience. An ideal treatment for enhancing circulation, connecting mind to body and for those who wish to alleviate muscle tension without the depth of a remedial massage.

Lymphatic Drainage

80min \$225

Whilst all massage stimulates the lymphatic system, this lymph specific technique uses delicate, rhythmic strokes over targeted lymphatic channels to encourage the natural drainage of lymph through the nodes. Recommended for immune system support, post-surgery recovery and aiding fluid retention.

Shiatsu

50min \$165 80min \$225

Shiatsu, meaning 'finger pressure', is a gentle and relaxing Japanese form of bodywork. An excellent treatment to promote circulation and calm the nervous system.

Specialty Therapies

Hawaiian Bodywork

80min \$245

Using hands and forearms and specially selected music, the hypnotic rhythm of this massage brings about a deep sense of relaxation. Feel yourself soften as your therapist performs a 'dance with the body', intuitively flowing from head to toe. Though it is best to be unclothed for this treatment, your therapist will maintain a draped sarong to protect your modesty. Ideal for shifting tension from the physical, energetic or emotional bodies.

Thai Massage

80min \$230

This fully clothed massage can be performed on a massage table or a futon and uses acupressure muscle compression and a supported stretching regime to stimulate your meridian channels. Aligning your structure and sending abundant energy flow along the neural pathways, it is useful for releasing both joint and muscle tension whilst also leaving you energised, balanced and relaxed. Thai massage can be strong and deep or soft and nurturing to suit your needs. Please note, Thai pyjamas are provided for your comfort.

MyBodyWorks

80min \$245

Combining Myotherapy and physiotherapy techniques, this innovative, holistic and restorative treatment combines stretching and musculoskeletal massage. By moving the muscle into a gentle stretch, the deeper muscles, ligaments and tendons are drawn to the surface allowing for a deeper release in tension. Your therapist works along the muscle from origin to insertion to lengthen and realign the entire body. Tailored to address your individual condition, this is ideal for chronic complaints such as muscle tightness, frozen shoulder, tennis elbow, whiplash, neck and back pain, sciatica, headaches and sports injuries.

Eastern Therapies

Eastern medicine has been used for thousands of years to address many physical, mental and emotional imbalances. Research shows that Traditional Chinese Medicine (TCM) and acupuncture help to activate the parasympathetic nervous system and draw the body out of a 'fight or flight' response. Based on Eastern healing techniques, these treatments can be effective in treating anxiety, stress, persistent muscular tension or challenges such as headaches, digestive disorders, hormonal imbalances, fertility and disrupted sleep patterns.

TCM and Acupuncture

50min \$175 80min \$250

This treatment begins with a consultation to gather relevant information from your health history and gain further understanding of your body's current condition by inspecting your pulses, eyes and tongue. Based on this information and your desired outcome, acupuncture is utilised to clear blockages, encourage normal flow of Qi and address any muscular tension.

East and West

80min \$260

A fusion of techniques delivers a potent treatment for the relief of stress and tension. Your practitioner softens tight muscles with massage before applying the cupping technique to release stubborn knots, drain toxins and bring blood flow to stagnant muscles. Acupuncture re-establishes a balanced flow of energy throughout the body, while moxibustion strengthens blood and stimulates Qi. Ideal for anyone with persistent muscular pain.

Eastern Harmony

50min \$180

There are many acupressure points around the face and scalp that retain tension and stress. Allow your therapist to alleviate the tension held in your facial muscles, scalp, neck and shoulders with a combination of acupuncture and massage. Find true relief from headaches, clenched jaw and teeth grinding, sinusitis, sore eyes or a busy mind.

Chi Nei Tsang

50min \$175

Translating to 'internal organs energy transformation', this treatment works mainly on the abdomen with deep, soft and gentle touches that are designed to teach your internal organs to work more efficiently. Unprocessed emotional charges are also treated in the same manner, along with all of the body systems: digestive, respiratory, cardiovascular, lymphatic, nervous, endocrine, urinary, reproductive, muscular-skeletal and the acupuncture meridian system. Ideal for those who are experiencing digestive complaints and for those looking to rebalance their body systems. We recommend combining with Colonic Hydrotherapy.

Zero Balancing

45min \$165

Combining principles of osteopathy with Traditional Chinese Medicine, Zero Balancing is hands-on acupressure bodywork, which unblocks and rebalances your body's structure and energy field. This session aligns the skeleton (without force or pain) to improve your posture and gait and leaves your deepest anatomy relaxed, comfortable and loose.
